

TURKS AGREE TO ARMISTICE

COAL MINERS TO MAKE PLANS FOR NEW CONFERENCE

Prepare for 1922 Wage Meeting and Investigation of Industry.

HOPE FOR AGREEMENT

If Operators and Workers Come to Understanding National Strike Averted.

CLEVELAND, O., Oct. 1.—(By A. P.)—Approximately 100 representatives of bituminous operators and miners from Indiana, Ohio, Illinois, Pennsylvania and West Virginia will meet here tomorrow to consider matters pertaining to the coal industry which have been subdued since the mine strike ended and to make arrangements for a conference next January, when miners' wages for the coal year beginning April 1, 1923, are to be formulated. Another purpose of the conference will be to initiate an investigation of the industry concurrently with that to be carried on by the fact-finding committee to be appointed by President Harding. The conference also makes representatives of the union officials and operators for places on the coal commission. The hope has been expressed on both sides that the conference will reach some amicable understanding which will enable them to reach a wage agreement prior to next April and thus avoid any national coal strikes.

Was Provided For. The conference was provided for in the agreement which brought the coal strike to an end in the middle of August. That agreement stipulated that operators signing it would send representatives to a convention here to make arrangements for wage negotiations to start next January. The area of bituminous coal fields to be represented at tomorrow's meeting will be larger than that covered by the Cleveland conference last August when the majority of the operators were from Ohio. Scale committee men from all the operators' associations of Indiana, Illinois, Pennsylvania and West Virginia dealing with the United Mine Workers of America are expected to attend. Members of the Pittsburgh Vein Operators' association of Cleveland, many of whom seceded from the conference held here last August will participate individually.

Bargaining May Be Issue. The question of collective bargaining may start a lively fight during tomorrow's conference as the Illinois Coal Operators' association has announced it would make every effort to prevent any agreement being made at this time for the continuance of each collective bargaining as has prevailed the past few years. The association will urge the industry it is understood, to await the report of President Harding's proposed coal commission before entering any new arrangements.

The position of the United Mine Workers of America, on the other hand, is understood to be that of demand that the operators meet the union in the usual manner prior to the expiration of the contract.

SEARCH FOR LEADER OF REVOLT AT JUAREZ

EL PASO, Tex., Oct. 1.—(By A. P.)—Federal authorities on both sides of the border tonight are searching for Capt. Feliciano Val Verde, leader of the revolt in Juarez. A third Mexican regiment in Juarez was strengthened when three horses taken from the regimental stable by Capt. Val Verde were found at 11 o'clock this morning. One of the horses was identified as that ridden by the captain during the battle.

Fifty mine seller prisoners were taken into Chihuahua City for trial by a military court. Gen. Eugenio Martinez, commander of the northern military zone announced.

UNCLE TO HEAD OF DAIL IS MURDERED

Four Armed Men Shot When Patrick Cosgrove Offers Resistance.

DUBLIN, Oct. 1.—(By A. P.)—Patrick Cosgrove, uncle of Kilian Cosgrove, president of the dail, was shot and killed yesterday here by four armed men, who raided the place.

The intruders ordered everybody to throw up their hands. Mr. Cosgrove refused to comply and was shot with one of the men, who shot him.

Another man was shot and seriously injured Saturday night while chatting with four companions in the street in Dublin. His assailants escaped.

THE WEATHER. Indiana: Generally fair, Monday and probably Tuesday, cooler. Tuesday in extreme north portion. Lower Michigan: Generally fair, Monday and probably Tuesday; cooler, Tuesday.

Farmers Of Ohio Hunt Real Lions That Killed Mule

MOUNT VICTORY, O., Oct. 1.—(By A. P.)—When Joseph Silver-

son, farmer near here, found his best mule dead and mutilated, he joined one of the groups of armed farmers which hunted all day through the woods near here for a pair of lions reported roaming the section.

Silverson and the other farmers returned without having seen the beasts. Two farmers near here, William Wilkerson and George Gastman, spurred the hunters on with statements that they had seen the lions early in the morning.

Where the lions came from remains a puzzle. It is presumed they escaped from some traveling carnival or circus train, but no reports have been received of lions escaping or being lost.

OWNER OF BICYCLE REPAIR SHOP HURT IN GUN ACCIDENT

Owen Hand in Serious Condition at Hospital Suffering From Bullet Wound.

Owen Hand, 36 years old, proprietor of a bicycle repair shop at 1384 N. Main st., lies in a serious condition at Epworth hospital suffering from a bullet wound inflicted about 2 o'clock yesterday afternoon when a .22 caliber revolver discharged after falling to the floor of his shop.

The bullet entered his abdomen, took an upward course through the stomach and lodged in the left side directly below the heart. Hand was in a weakened condition from the loss of blood and as a result of the shock when he was removed to the hospital in the police ambulance in charge of Officers Parker and Mielke.

According to the information furnished the police, Hand had entered the repair shop early yesterday afternoon to finish some urgent repair work. To secure his overalls it was necessary for him to reach over his bench, as the overalls were hanging on a hook above the bench. The work clothes fell to the bench and as Hand picked them up, the revolver, which had been lying on the bench, became entangled and dropped, as the overalls were hanging on a hook above the bench. The bullet struck Hand in the stomach on its upward course.

Although bleeding profusely, Hand changed his blood-saturated shirt and started in search of a physician. Shortly after Traffic Officer Hoeslinski noticed the bloody condition of his clothes, the wound having continued to bleed freely, and ordered his removal to the hospital.

T. J. Swartz attended Hand and last night operated on him, removing the bullet. Although in a serious condition late last night, Hand has a slight chance for recovery.

ASK RAIL PEACE IN ANTHRACITE REGION

Union Leaders and Municipal Officials Feel Severe Shortage in Cars.

SCRANTON, Pa., Oct. 1.—A committee often to confer with the rail executives in an effort to settle the anthracite strikes in the anthracite region was named at the meeting of union leaders and municipal officials.

The meeting was attended by more than a thousand men, including the mayors of all towns in the hard coal field.

Union leaders declared that many anthracite mines that have just been reopened after the suspension have been compelled to shut down again because of cars. For that reason the idle miners desire to aid the shopmen in getting back to work.

James H. Maurer, president of the Pennsylvania state federation of labor, declared that the strike of shopmen on railroads entering the anthracite field must be settled at once in order to get coal moved quickly and to prevent suffering among the consumers. Many speeches attacking Atty. Gen. Daugherty's injunction were delivered and wildly cheered.

A statement read at the meeting declared there were approximately 50,000 men on strike on roads entering the hard coal belt and that the companies are trying to fill their places with incompetent workmen.

ONE SHOT IN JEALOUS FIGHT OVER A WOMAN

MARION, Ind., Oct. 1.—(By A. P.)—John Britton, 36, is suffering from a gunshot wound and serious cuts as a result, it is said, of a jealous altercation here late last night with Charles Williams, over the affections of Mrs. Agnes Jackson. Britton and Mrs. Jackson, who are residents of this city, are being held pending an investigation. Williams, who lives at Fort Wayne, is being sought by the police.

ISADORA DUNCAN NOT PERMITTED TO LAND IN U. S.

Interpretative Dancer Detained by Immigration Authorities at New York.

MARRIES RUSSIAN POET

Artist Was Born in California But Has Been Abroad for Five Years.

NEW YORK, Oct. 1.—(By A. P.)—Isadora Duncan, interpretative dancer who was born in California and has been abroad since 1917, was refused permission to land today when she arrived on the steamship Paris. She was accompanied by the young Russian poet Serge Yessenin whom she recently married. With the pair was her secretary also a Russian writer, W. Wetling. All three were notified by immigration inspectors that "on orders from Washington" they must be detained. The members of the party were ordered to Ellis island but were permitted to stay aboard ship tonight after officials of the line offered security for their safekeeping pending further advice from Washington.

Offer No Reason. Immigration officials would not say why Miss Duncan and the Russians were held. Miss Duncan said she had been assured by the United States consul in Paris that the passports of the party had been properly issued.

WASHINGTON, Oct. 1.—(By A. P.)—Refusal of New York immigration authorities to permit the landing of Isadora Duncan, the dancer, and her Russian husband and secretary was reported to the department of labor, under which the immigration bureau operates, said they knew nothing whatever of the case.

Secretary Davis Uninformed. "The question of permitting Miss Duncan or others to enter the port of New York is entirely in the hands of the authorities here," said Mr. Davis, who explained that the board of inquiry at New York, which excludes aliens and others acted on its own initiative.

"This is the first I have heard of Miss Duncan's detention, and no orders to keep her out of the country have been sent from here," he added.

DENY FINDING OF DIRKS IN MURDER

Expect Medical Statement After Autopsy on Body of Slain Minister.

NEW BRUNSWICK, N. J., Oct. 1.—Rumors that two dirks had been found in the home of Matthew Sullivan, caretaker of the Phillips farm, by detectives investigating the double shooting two weeks ago of the Rev. Edward Wheeler Hall, rector of the Protestant Episcopal church of St. John the Evangelist, and Mrs. James Mills, were denied by the police today.

Detectives said that the weapons were ordinary kitchen knives and were not considered as connected in any way with the case. Sullivan was questioned for three hours on Saturday by detectives but was not held.

A medical report covering the condition of the bodies when they were found in the Somerset county orchard, still lacks a statement regarding the number of bullet wounds found in Dr. Hall's body. This may be completed tomorrow when an autopsy is expected to be performed.

The authorities have indicated that new lines of investigation may develop from information given in the eight unexplained and unadmitted. Sullivan was definitely established yesterday. The authorities have declined to comment on the contents of these letters beyond declaring that they are derogatory to certain members of the congregation.

"AUTOMOBILE FOOT" IS LATEST IN AFFLICTIONS

CHICAGO, Oct. 1.—(By A. P.)—A brand new affliction—the automobile foot—was disclosed today by Dr. Charles Cross of San Francisco to attend the convention of the physical therapists. It is caused he declared by holding the foot for prolonged periods on the accelerator pedal.

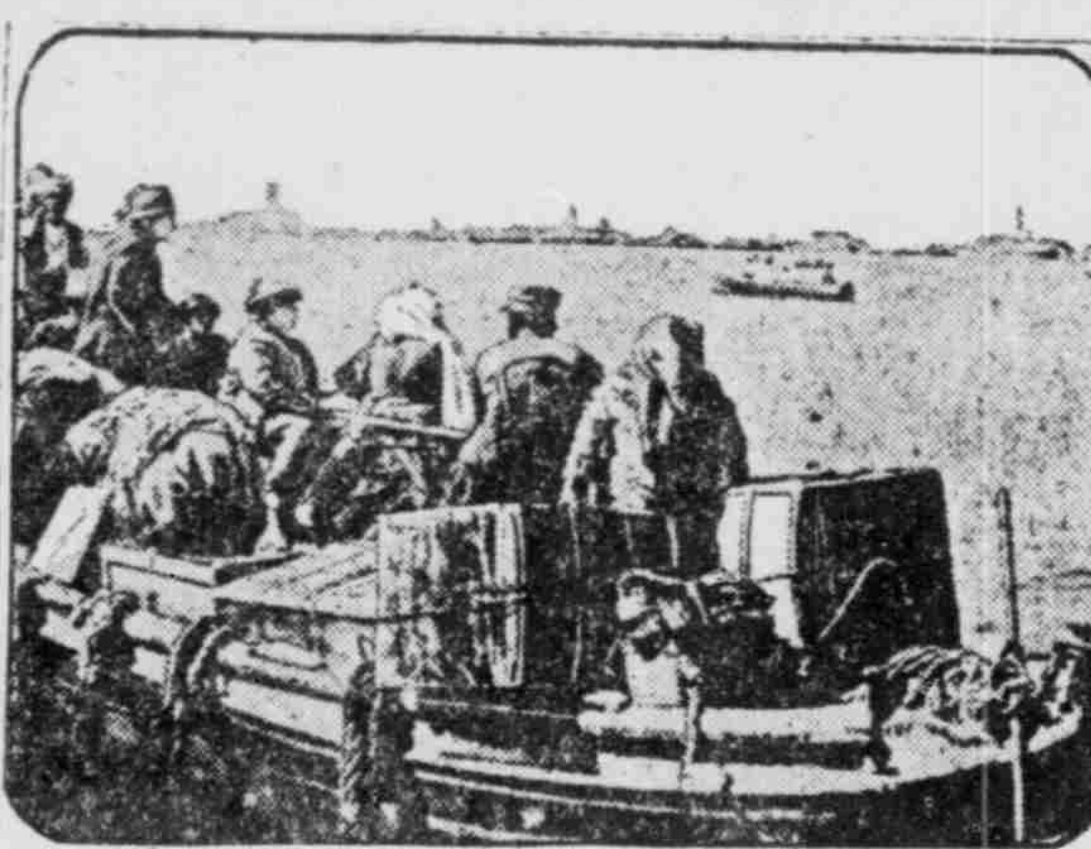

The lesion caused by this strain he said, is usually located at the second toe. Sensations of pain occur across the ball of the foot alternately increasing and decreasing until it causes alarm according to the physician.

"Limousine foot" Dr. Cross added, "is something entirely different—being caused by insufficient walking."

FOREST FIRES RAGE

ST. PAUL, Minn., Oct. 1.—(By A. P.)—Three forest fires tonight were threatening Itasca state park in northern Minnesota, according to word received at the state forester's office, and W. T. Cox, state forester, was expected to arrive at the park late tonight to take personal charge of the situation there.

Thousands Fleeing Turk Invasion

Every type of water craft available was utilized by Smyrna residents in their mad rush from the city to escape the Moslem invaders. The barge shown here carries the effects of a dozen families.

Scene at one of the quays in Smyrna, where thousands of refugees rushed with their belongings in an effort to escape the approaching Turkish forces.

Business Recovery Further Evidenced During Past Week

Foreign Outlook Causes Reaction, However—Industrial Activity Increased.

NEW YORK, Oct. 1.—(By A. P.)—Further evidence of improvement in the financial and industrial situation during the past week found an offset as far as business and financial sentiment is concerned in the foreign outlook. Reactions in securities markets have furnished a background for somewhat grave views as to the possibility of war between Turkey and Great Britain.

Despite the fact that conservative quarters are skeptical as to an actual outbreak of hostilities, the possibility of clash in the neutral zone along the Dardanelles acted as a curb on buying. In addition, it was pointed out by some observers that the German reparations problem still remains and that a new crisis will be presented early in the year unless some comprehensive plan for dealing with the difficulty shall be agreed upon in the meantime.

Industrial activity at home showed, however, a further recovery from the effects of the strike. The steel industry was reported to be operating at a rate close to 70 percent of capacity as compared to 50 percent during the August shutdown. Coal supplies are no longer a limiting factor.

Shop Force 90 Percent Normal. Further settlements have been made between individual railroads and their shopmen and the association of railway executives has announced that shop forces have been returned to over 90 percent of normal. Employment reports of individual carriers will no longer be required.

Wheat prices are continuing to fluctuate with the war news, but covering of shorts in the expiring September option brought some strength into the market. There are signs that the grain trade is beginning to feel the shortage of railroad equipment.

A slightly firmer tone has persisted in the money market, although call money has eased off materially after the flurry caused by

tax payment operations. The principal feature of the federal reserve statement is a continuation of the holdings of acceptances bought in the open market by the reserve banks. The system's ratio remains practically unchanged.

Bankers to Oppose Branch Plan When Convention Meets. Gathering Important—Many Delegations Present From Western Cities. NEW YORK, Oct. 1.—(By A. P.)—On the eve of what promises to be the largest and most important—the 48th annual convention of the American Bankers' association which opens tomorrow, independent bankers representing all sections of the country met in preliminary session today and planned a campaign to put the gathering on record against the establishment of branch banks by the larger national banking houses.

Today's preliminary session assumed the proportion of a mass meeting with bankers' delegations present from Chicago, Keokuk, Ia.; Topeka, Kas.; Covington, Ky.; Cleveland, O.; Pittsburg, St. Louis, Los Angeles, Minneapolis, Baltimore, Portland, Ore., and other cities. Anti-branch bank headquarters have been established in the Biltmore hotel by the Chicago and Cook County Bankers' association.

The bankers at today's meeting decided to attempt to force through the convention a resolution placing the organization on record as against the branch bank plan, by which national banks in the larger cities may maintain establishments in other cities and towns. They will also seek to have the body disapprove

To Force Resolutions. Today's preliminary session assumed the proportion of a mass meeting with bankers' delegations present from Chicago, Keokuk, Ia.; Topeka, Kas.; Covington, Ky.; Cleveland, O.; Pittsburg, St. Louis, Los Angeles, Minneapolis, Baltimore, Portland, Ore., and other cities. Anti-branch bank headquarters have been established in the Biltmore hotel by the Chicago and Cook County Bankers' association.

GREEK REPLY TO ALLIED NOTE IS MADE PUBLIC

Demand Thrace Be Not Left Under Greek Army for One Day Longer.

FORMAL REPLY COMING

Accept Conference—Credits Entente With Sentiment of Justice.

PARIS, Oct. 1.—(By A. P.)—The text of Mustafa Kemal's reply to the allied joint note of Sept. 23 was made public tonight by the foreign office.

The reply is dated Sept. 29 and promises immediately to stop the military operations which have been developing toward Constantinople and Chania "in pursuit of the Greek armies." It accepts the proposal for an armistice conference at Mudania next Tuesday with representatives of the entente and nominates Gen. Ismet Pasha to act for the Turks.

Dealing with Thrace, the reply is worded with marked firmness. It credits the entente with sentiments of justice toward Turkey, but demands that Thrace shall not be left one day longer under the Greek army, saying that it is indispensable that Thrace shall be evacuated immediately and restored to the Ankara government up to the west of the Maritza river, including Adrianople. The note, which is signed by Yusuf Kemal, minister of foreign affairs, begins by saying that a formal reply to the entente's note will be sent in a few days by his government.

Half Military Moves. "Confident in the assurances which M. Franklin-Bouillon has given the commander-in-chief of the Turkish army, in accord with the representative of the entente powers meeting in Paris and persisted that negotiations will at once be proceeded with to establish a just peace," the note continues, "an order has been given to stop immediately our military movements which have been unceasingly developing in the direction of Constantinople and Chania in pursuit of the Greek armies."

The assurance given by M. Franklin-Bouillon has established the sentiments of justice, with which the propositions of the entente are truly inspired with a view of assuring the rights of Turkey. Nevertheless, the maintenance of Thrace, if only for a day or more, under the administration and occupation of the Greek army is a cause of danger of every kind and grief to Turkey's peoples. It is indispensable that Thrace to the west of the Maritza river with Adrianople be evacuated immediately and restored to the great national assembly of Turkey."

The reply in conclusion accepts Mudania for a conference on Oct. 3 and names Ismet Pasha, commander of the armies on the west front, as Turkish representative and asks to be informed as to the names of the generals representing the entente powers.

Dedicate Flying Field to Fagley. Citizens of Howard County Pay Tribute—Witness Big Aerial Demonstration.

KOKOMO, Ind., Oct. 1.—(By A. P.)—Wilber Fagley, flying field was dedicated here today, in honor of the late Wilber M. Fagley, who commanded the 12th observation squadron, local air unit, during the world war. Thousands of citizens of Howard county joined with the Kokomo rotary club and members of the squadron, in the exercise. Adj. Gen. Harry B. Smith, commander of the Indiana national guard and officials of the United States air service took part in the dedication and witnessed the big aerial field meet which was held in connection with the ceremonies.

A parachute drop by Capt. James Devery of Chautauque field in which he leaped from the cockpit of a speeding plane was the feature of the aerial meet which started at 10:30 this morning and closed at four o'clock this afternoon. Devery leaped from the plane, his parachute closing, and "shot downward several hundred feet before it opened and let him down on top of a tree. He was unhurt.

Stunt flying with six planes doing aerial acrobatics at the same time, bomb dropping demonstrations and formation flying were other features.

DEATH CLAIMS VETERAN "OREGON" COMMANDER. LONG BEACH, Calif., Oct. 1.—(By A. P.)—Rear Admiral Charles E. Clark, U. S. N., who when a captain commanded the battleship Oregon in its famous voyage from San Francisco to Key West and later in the battle of Santiago, July 3, 1897, in the Spanish-American war, died at the home of his daughter here late Sunday. He was 79 years old.

Man Who Solved "Bottle Mystery" Awarded 'Ducats'

CHICAGO, Oct. 1.—James P. Hon,

a salesman of St. Louis, is the luckiest baseball fan in the world tonight. While thousands are scrambling for world's series tickets, Hon has been given a complete set by Ban B. Johnson, president of the American league, accompanied by a personal check of \$100 and round trip transportation between St. Louis and New York. Hon's employers have given him leave of absence at full pay to attend the games.

And all because he solved the "pop bottle mystery," the suit of Fielder Whitney Witt's of the Yankees being struck on the head by a pop bottle during a crucial series in St. Louis recently.

Witt was so badly injured that he had to be carried off the field and great indignation was expressed over the incident in all sections of the country. Several rewards were offered for the identification of the supposed thrower of the bottle.

Hon, who happened to have a seat near the spot where Witt was injured, solved the mystery when, in a letter to Mr. Johnson, he explained just how the accident occurred. The letter said Witt, while running stepped on the neck of a bottle causing it to bounce up and strike him on the head. Mr. Johnson was so well pleased with Hon's explanation that he sent him the reward, railway and baseball tickets.

STATE TO DISMISS SOME DEFENDANTS AT HERRIN TRIALS

State May Be Forced to Such Action in Order to Expedite Hearings.

MARTIN, Ill., Oct. 1.—(By A. P.)—That the state may not prosecute some of the defendants in the first case of Herrin mine killings trial, scheduled to begin Wednesday, Nov. 8, appears probable, according to State Atty. Deles Duty, who will direct the prosecution.

Duty admitted today that the state probably would be forced to such action in order to expedite the trials which it is estimated, will consume about four months.

Difficulty in selecting a jury it is believed may cause the state to drop some of the defendants. Forty-eight men all charged with murder in one indictment in connection with the death of Howard Huffman, of Huntington, Ind., one of the 19 non-union workers who died as a result of riots last June, are to go to trial first.

Nearly 2,000 Challenges. The law permits 20 peremptory challenges in a murder trial to each side for each defendant and in this case with 48 defendants the challenges would total nearly 2,000. In this manner it was explained that each side could excuse from jury service without cause 360 takers. As the county has a population of only sixty thousand the impaneiling of a jury that would be satisfactory for both sides was based upon an almost impossible task.

Thirty-five of the 48 men named in the indictment scheduled to be tried first are also indicted for other murders and it was understood the state would not attempt to prosecute them. On this point there has been quibbling until the British cabinet permitted Gen. Harrington to send a virtual ultimatum to the Turks to clear out. Although the Turks have not yet withdrawn completely they have evacuated the heights of Pren Keul and have desisted also from parading before the British wire entanglements.

HEN LAYS 324 EGGS IN YEAR; RECORD BROKEN

SANTA CRUZ, Cal., Oct. 1.—The world's egg laying record was broken here, according to officials of the California farm bureau federation when "Columbia Belle," a white leghorn hen belonging to Alex Stewart of Santa Cruz, laid her 324th egg on the last day of a farm bureau contest that has been in progress for a year. The former record was 315 eggs in a year made in 1921 by a pure white leghorn from the Hollywood poultry farm of Hollywood, Wash.

ADAMS SAYS G. O. P. IS WELL SATISFIED

Of 298 Republicans in House, 259 Enter Race and Only 14 Defeated.

WASHINGTON, Oct. 1.—(By A. P.)—With Rhode Island the only state in which primaries for the senate and house nominees are yet to be held, Chairman Adams of the republican national committee declared in a statement today that recent primary results showed "the rank and file of the republican party are satisfied with the work and personnel of the republican majority in the present congress."

Of the present republican membership of 298 in the house, Mr. Adams said 259 entered the primaries and only 14 were defeated.

TWO FIREMEN HURT. INDIANAPOLIS, Ind., Oct. 1.—Two firemen were slightly injured, and damage estimated at \$1,000 was caused by a fire which started in a vulcanizing establishment here today and spread to a barber shop in an adjoining building. The firemen were cut by a falling pane of glass.

ORDER MILITARY TO END ACTIVITY IN NEUTRAL ZONE

Suspend Operation of Irregular Turkish Forces in Thrace at Once.

WILL MEET TUESDAY

London Considers Eastern Situation Easier—British Watch Developments.

CONSTANTINOPLE, Oct. 1.—(By A. P.)—The Turkish nationalist authorities have agreed to an armistice conference in Mudania on Tuesday and have requested the allied high commissioners to appoint delegates. The nationalists will be represented by Ismet Pasha and possibly by Hamid Bey.

Movements for a cessation of military activity in the Chanaq region of Asiatic Turkey and for the suspension of the activities of the Turkish irregular forces in Thrace have been issued by Mustafa Kemal Pasha, the Turkish nationalist leader.

SITUATION EASER. LONDON, Oct. 1.—With the virtual acceptance by Mustafa Kemal Pasha of a conference at Mudania Tuesday, or as soon as possible thereafter, the whole near eastern situation appears temporarily easier. However, the fact that Turkish troops are still concentrating in the Imdid zone, notwithstanding that they have retired slightly in the Chanaq zone, would indicate, according to remarks made after the British cabinet's second meeting today that "Kemal is still playing a game."

While the cabinet members appear to be much gratified at the happy conclusion for the moment of a difficulty which might have necessitated the use of force in the Chanaq zone, there are other bridges to cross. Up to the present there is no information from Gen. Harrington, the British commander at Constantinople, that Kemal will attend the Mudania conference, although Gen. Harrington's dispatches indicate that he might.

Cabinet to Meet Again. After several cabinet meetings Saturday, one of them running into one o'clock Sunday morning, information from the near east was considered not altogether satisfactory and two additional meetings were held today. It is possible that others will be held Monday, though Premier Lloyd-George went to Chancery court, his summer residence, late this afternoon.

The Mudania meeting will be a purely military affair, to arrange, according to the original allied note to Kemal Pasha that the neutral zone shall be respected and also to agree upon lines behind which the Greeks are to withdraw in Thrace, both points pending the general peace conference. There will be no political representation at the three allied powers as well as of Greece and Turkey.

It is pointed out that the very basis of this conference is respect for the neutral zone and before it begins the Turks will be expected to evacuate the "Chanaq" area entirely. On this point there has been quibbling until the British cabinet permitted Gen. Harrington to send a virtual ultimatum to the Turks to clear out. Although the Turks have not yet withdrawn completely they have evacuated the heights of Pren Keul and have desisted also from parading before the British wire entanglements.

Make Efforts for Peace. If the Turks should commence such actions attempted to enter the neutral zone at that point there is likelihood that the British will raise the question before entering the conference. It is known that Gen. Harrington is making every effort to maintain peace, he is every exacting and determined person when given cause.

Another question which may arise within the conference is the form of government or control to be established in Thrace pending the terms of peace. It is certain that the Turks will demand that they be permitted to take over and occupy Thrace immediately to protect their nationals, keep order and prevent confusion and crime with the withdrawal of the Greeks. It is suggested that allied officials and troops might be used for this purpose.

Under these heads the conference promises many disputes. In some diplomatic circles there is a certain optimism over the situation, it being pointed out that the Turks are "too wise to fight" when they know they risk all by such a course, whereas they are assured of many advantages before the peace conference opens.

SITUATIONS IMPROVED. PARIS, Oct. 1.—(By A. P.)—The general feeling in Paris tonight is that the danger point in the near east situation is past. The withdrawal of the Turks from Pren Keul and as semi-officially reported also from their positions at Chanaq, is accepted as proof of the Ankara government's readiness to comply with the allied desires.

It is explained that there will be two conferences at Mudania the first between Gen. Harrington, the British commander, and Mustafa Kemal, or his representative, alone. This is to settle the question regarding the neutral zone on the Asia Minor side of the straits. The second will be quite a distinct conference and will draw up a provisional sta-
